

NEW! CONVERTIBLE SEAM TESTER ...

MM21060 - Convertible Seam Tester

- 10-1/4" overall length
- 5" plated steel seam tester shaft
- 5-3/4" easy to grip plastic handle
- Handle end accepts screw-in fiberglass or wood handle

... CHANGES TO A STAND-UP SEAM TESTER IN SECONDS!

MM21080 - 60" long fiberglass handle with the MM21060 convertible seam tester

Order the MM21080 and get two tools in one! Simply screw the MM21060 convertible seam tester into the MR02400 60" fiberglass handle (also sold separately) and you have the "stand-up" version! The handle's threaded steel tip easily screws into the seam tester's plastic handle. The stand-up seam tester is ideal for checking seams quickly while standing or walking. Can be ideal for final checks of problem areas.

MR02400 - 60" long fiberglass handle

Order the MR02400 for the handle only.
