

NEW! ERGONOMIC FEATURES FOR SEAM ROLLERS

**MADE IN
 USA**

■ **BETTER COMFORT:**

The ergonomic cushion grip provides you with a larger, more comfortable gripping surface.

■ **BETTER VIEW:**

The extended offset fork gives you 1" more view of the roller's point of contact.

*Standard Wood
 Handle and
 Standard Fork*

*Cushion Grip
 Handle and
 Extended
 Offset Fork*

■ **BETTER CLEARANCE:**

The extended offset fork also saves your knuckles when maneuvering the tool in awkward areas by giving 1" more clearance between the handle and the point of contact.

See reverse side for a comparison of Everhard's ergonomic seam roller with the standard seam roller.

Ergonomic Seam Rollers - Measure 1-5/16" dia. x 1-3/4" wide. Available only from Everhard Products. Made in the USA. Everhard also manufactures seam rollers in other sizes (including stand-up seam rollers) available in steel, silicone, urethane, natural rubber, and nylon. Visit our website, www.everhard.com, or call toll-free 1-800-298-2832.

MODEL #	DESCRIPTION	WT (LBS)
MR05029	Ergonomic model silicone seam roller, with cushion grip handle and extended offset fork, 1-5/16" dia. x 1-3/4" wide (<i>right-handed model -- shown above</i>)	0.563
MR05022	Ergonomic model silicone seam roller, with cushion grip handle and extended offset fork, 1-5/16" dia. x 1-3/4" wide (<i>left-handed model</i>)	0.563

**EVERHARD'S ERGO SEAM ROLLERS
HAVE MORE KNUCKLE CLEARANCE**

The ergo seam roller has 1" more knuckle clearance between the end of the roller handle and the point of contact. This additional clearance allows use of the roller in a way that places less stress on the hand and wrist, especially in tight areas.

**EVERHARD'S ERGO SEAM ROLLERS
HAVE A LARGER VIEWING AREA**

The ergo seam roller has a larger viewing area between the end of the roller handle and the roller, allowing you to see more of the work area.

**RIGHT-HANDED VS. LEFT-HANDED ERGO SEAM
ROLLERS WITH EXTENDED OFFSET FORK**

The MR05029 provides knuckle clearance for right-handed use, keeping the fork and bolt on the right side of the roller away from the work area. The MR05022 provides knuckle clearance for left-handed use, keeping the fork and bolt on the left side of the roller away from the work area.
