

Klenk® Copper Cutting Aviation Snips

MOST DURABLE + EASIEST CUTTING + MOST COMFORTABLE

Get the extra leverage and cutting power of a compound-action aviation snip with the smooth cut of a traditional pattern snip. Klenk's serrationless snips leave no teeth marks in the metal.

Perfect for architectural metals -- copper, brass and pre-coated metals -- where a smooth cut edge is needed. Also recommended for zinc metals, which are used extensively in the building industry in roofing, flashing and weatherproofing applications.

MODEL #	CUT	KLENK COPPER CUTTING SNIPS, 10½"	WEIGHT
