

DON'T STICK WITH US!

NEW SuperNonStick™ 10" Bent Shear for Roofing
Made with New Specialized Industrial Release Coating

- Industrial Release Coating resists adhesives better compared with other non-stick coatings. No other shear comes close -- adhesives, glues, and tapes pull off easily with little or no clean up.
- Shears are 10" bent trimmers, with off-set handles, which are ideal for cutting roofing materials (including Peel-and-Stick) and the 10" blades are ideal for long straight cuts.
- Shears are hot-forged, through hardened-carbon steel, providing durability and longer-lasting sharp edges.
- Large, comfortable handles fit all hand sizes.
- Optional sheaths are available in reinforced nylon or brass-riveted leather (sold separately).

MODEL #	DESCRIPTION	WEIGHT
DC65915	New SuperNonStick™ 10" bent shear for roofing, with a 4-3/8" cut, comfort-grip handles	1.017 lbs.

"Don't stick with us!"

***Everhard's SuperNonStick™
Shears -- minimize gummy resi-
due and keep blades from stick-
ing -- even with the strongest
adhesives!***
