

ROLL-N-CHEK[®] SEAM ROLLERS

Our patented MR05032 Roll-N-Chek[®] is the easiest way to roll and check welded seams -- the MR05018 Roll-N-Chek[®] is available now, with a wood handle!

Roll seam using Everhard's ROLL-N-CHEK[®] seam roller and hot-air gun.

Immediately check seam by running testing probe along seam edge.

Use flat end of seam tester to tamp and hold down T-joints.

Use blunted tip of seam tester to lift material to seam in tight areas.

Model #MR05032
Soft-grip
Plastic Handle

Model #MR05018
Wood Handle
